UNIVERSITY PROJECT

Image Steggy (Image Steganography Tool)

Torrens University Australia, Adelaide, SA

2023–2024

- Built a web-based tool to hide secret text inside images using steganography concepts.
- Tools: HTML, CSS, JavaScript, Git/GitHub.
- Developed encoding/decoding functions, tested with sample images, documented results.

WORK EXPERIENCE

IT Application Support Consultant (Freelance / Contract)

Adelaide, South Australia

March 2022 – Present

- Provided Level 1/2 IT and application support for small business clients, ensuring reliable system performance and user support across Microsoft 365 and Windows environments.
- Supported business applications including SharePoint, Outlook, Teams, and web-based systems.
- Managed user onboarding/offboarding, permissions, and access control using Active Directory/Microsoft 365.
- Troubleshot application, workflow, and system issues to ensure business continuity.
- Configured hosting, domain, DNS, and SSL environments for production websites.
- Collaborated with clients to understand business requirements and implement technical solutions.

Administrative Assistant (ICT and Data Support)

SA Mushrooms, Waterloo Corner, South Australia

December 2024 – May 2025

- Supported records, reporting and data accuracy tasks using Microsoft tools (**Excel/M365**).
- Assisted staff with basic IT support issues and coordinated escalations when required.
- Improved digital documentation workflow to reduce manual errors and save time.
- Supported user account access issues (logins/passwords) and escalated complex incidents as needed.
- Supported internal business applications and assisted staff with system access and usage queries.

Full Stack Developer

Eyden Inc, Kathmandu, Nepal

December 2020– March 2022

- Developed and maintained web applications using full-stack technologies.
- Fixed bugs, enhanced features and supported API/database-driven functionality.

- Assisted deployments and collaborated with stakeholders to deliver stable releases.

Data Specialist

CloudFactory, Kathmandu, Nepal

November 2017 – Sep 2020

- Processed and validated high-volume data with strong accuracy and quality standards.
- Followed structured workflows, meeting productivity targets and deadlines.
- Maintained attention to detail while ensuring data quality, confidentiality, and compliance with client requirements.

PROJECTS

Glide Education – Consultancy and Visa Services Platform

Technologies: React, Next.js, MySQL, Node.js, Tailwind, Vercel

- Solely developed and deployed a production website with responsive UI and service pages.
- Built secure enquiry/contact forms with validation and email notifications.
- Managed hosting setup including domain/DNS, SSL, and deployment updates for stability.

Prime Roof Care – Service Management Website

Technologies: HTML, CSS, Tailwind

- Built a mobile-friendly service website to support customer enquiries and lead generation.
- Designed responsive pages using HTML/CSS/Tailwind for smooth performance.
- Managed basic hosting updates and content changes after deployment.
