RAJIV BHANDARI

Application Support Analyst | SQL | Business Systems

Adelaide, SA | +61 413 230 855 | bhandarirajiv25@gmail.com | linkedin.com/in/rajiv-bhandari25 | rajivbhandari.com

Professional Summary

Application support and data professional with 5+ years of experience across production support, enterprise systems, SQL data validation, and client-facing technical delivery. Experienced in troubleshooting web applications, managing defects, coordinating UAT and regression testing, configuring role-based workflows, and writing clear technical documentation. Master of Information Technology graduate with hands-on experience in SQL, Microsoft 365, React, Node.js, Python, and PostgreSQL.

Core Skills

Application Support: incident and defect management, root-cause investigation, UAT, regression testing, release support, access and permissions, user documentation

Data and Reporting: SQL, T-SQL, MySQL, PostgreSQL, data validation, reconciliation, data quality, Python, Pandas, Excel

Systems and Tools: Microsoft 365, SharePoint, Teams, Active Directory, REST APIs, Git, GitHub, Vercel, issue tracking

Development: React, Next.js, TypeScript, JavaScript, Node.js, Django, HTML, CSS, Tailwind CSS

Professional Experience

Software Developer Intern | *SpaceTel IT* | *Adelaide, SA* | *May 2026 - Aug 2026*

- Administered and tested a multi-role enterprise compliance platform, translating business requirements into system configurations.
- Configured workflows, access roles, and permission hierarchies for Admin, Auditor, and Client user groups.
- Managed defects from logging and reproduction through developer liaison, retesting, and closure; coordinated pre-release UAT and regression testing and prepared release evidence.

Application Support and IT Support Consultant | *Sole Trader / Contract* | *Remote, Australia* | *2022 - Present*

- Administer Microsoft 365, SharePoint, Teams, and custom web platforms while supporting non-technical users and business stakeholders.
- Use T-SQL and MySQL for data retrieval, validation, reporting checks, and application troubleshooting.
- Investigate application, API, workflow, data, access, and deployment issues; document root causes, fixes, release notes, and user procedures.
- Build and support production websites, including hosting, domain, DNS, SSL, deployment, and post-launch updates.

Application Support Developer | *Eydean Inc* | *Kathmandu, Nepal* | *Dec 2020 - Mar 2022*

- Supported production React and Node.js applications, resolving defects, testing API integrations, and improving database-backed workflows.
- Investigated application and data issues, tested fixes, optimized queries, and maintained technical notes for handover and recurring troubleshooting.

Data Specialist | *CloudFactory* | *Kathmandu, Nepal* | *Nov 2017 - Nov 2020*

- Processed and validated high-volume structured client data while meeting strict accuracy, productivity, and confidentiality requirements.
- Identified anomalies, corrected inconsistencies, escalated unclear cases, and followed documented quality-control procedures.

Selected Projects

Australian Supermarket Retail Analytics | *PostgreSQL, Python, Pandas, pytest* | Project

- Designed a normalized schema and generated a reproducible dataset of about 1,500 customers, 45 stores, and 10,000 transactions across four Australian states.
- Built churn, cohort retention, and 30-day rolling revenue analyses using window functions, LATERAL joins, generate_series, and LAG; validated data integrity with pytest.

Northstar Retail and B2B Sales Dashboard | *Python, Streamlit, Pandas, Plotly* | Project

- Created a filterable dashboard across about 1,000 transactions with revenue, margin, order, and average-order-value KPIs plus trend, region, channel, and product views.
- Added cached data loading and graceful handling for filter combinations that return no records.

Glide Education | *Next.js, React, Node.js, MySQL* | Project

- Built and deployed a responsive production website with clear service content and enquiry workflows.
- Managed deployment, domain, DNS, SSL, production updates, and post-launch support.

Additional Experience

Disability Support Worker (Part-time) | *Adorable Home Care / Northern Disability | Adelaide, SA | 2024 - Present*

- Maintain accurate digital case notes, incident records, and shift handovers in regulated care environments while following privacy, organisational policy, and quality requirements.
